Financial Outcomes

Identifying Key Market Stakeholders

Understanding the Major Groups Impacted by Recent Policy Changes

Opportunities for Market Growth

Who Benefits From the Recent Policy Changes

1

The Innovators

Use regulatory speed and protected markets to outmaneuver the larger, established companies.

2

Patients & Payers

Use their increased choice of low-cost drugs to demand better prices and more transparency from big companies.

3

Industry Partners

Grow their business by providing essential launch and market access strategies for the new wave of "**Innovator**" companies.

Key Insight:

This creates a **new client base** for agencies like **Petauri**, as emerging companies require **comprehensive commercialization support** to navigate market entry.

Navigating Market Pressures & Challenges

Large, established companies face a multi-front squeeze

Large Companies Under Pressure:

The Incumbent Companies face a multi-front squeeze, threatening their traditional way of doing business.

- 1 **Pricing Pressure** (MFN Model)
- 2 **Demand Pressure** (Medicaid Cuts)
- 3 **Operational Pressure** (Tariffs)

Impact on the Broader Environment

- **Patients** face their own challenges, including the potential loss of insurance coverage due to Medicaid cuts and the need to navigate the changing world of online health information.
- **Industry Partners** must prove their value to incumbent clients who are facing budget cuts, while also helping them craft effective strategies to navigate these pressures.

Key Insight:

The central challenge for our **Incumbent Partners** is no longer just market access, but market preservation.
Our focus must shift to helping them prove their value is worth the price

How Market Disruption Creates Opportunity for Petauri

Connecting Market Needs to Company Planning and Strategy

New Client Needs:

- **Incumbents** need to defend their products and prove their value is worth the price.
- **Innovator** need expert help launching their new products successfully.
- Both must manage their online narrative in a world of patient-led social media.

New Client Needs:

- Provide smart strategies for communicating a drug's value to trusted KDM (Key Decision-Makers)
- Research and expand our launch support to the new wave of "**Innovator**" companies.
- Implement strategic reputation assessment and management programs.

Connecting Strategy to Financial Outcomes

How Business Strategy Impacts the Bottom Line

Key Groups at Play

Identifying the main groups:
the Innovators, the
Incumbents, Patients, and
Industry Partners (like Petauri)

Growth Opportunities

How these groups are
leveraging new rules and
increased choice to create new
avenues for growth and value

New Challenges

Patient changes and why
Incumbents are facing a
"multi-front squeeze" from
pricing, demand, and
operational pressures

Company Strategies

How these opportunities
and challenges create need
for both Challengers and
Incumbents to partner with
agencies like Petauri

The market shifts and strategic responses we've discussed have created a new, more competitive business environment. This directly forces a re-evaluation of how drugs are priced, valued, and contracted.

Next, Molly will detail the specific financial outcomes of this new dynamic.
